

# When it comes to cover supervisors, we do everything by the book.

Cover supervisors have been proving a popular choice in Schools for a number of years as a cost effective way of covering absent staff. A cover supervisor is there to supervise the class and ensure that the work left by the regular classroom teacher is been done!

**Have you got what it takes to be a cover supervisor?**

**Are you able to work well under pressure remaining calm at all times?**

**Can you relate to and communicate well with young people?**

**Would you feel confident to supervise a class of up to 30 pupils on your own?**

**Do you have 5 GCSE's including Maths and English?**

If you can answer yes to these questions Principal Resourcing would like to hear from you.

We offer up to a week's free training with local schools who will equip you with the necessary tools to be able to confidently supervise a class. Who knows, it may well inspire you to go and train to be a qualified teacher.

Contact your local branch for more details.
